RENTALS, SALES & SERVICE

MODULAR HOUSING & FACILITIES IN CANADA

For short-term, temporary, and relocatable accommodations, our modular fleet of rental facilities are a cost-effective and customizable solution.

ADVANTAGES OF MODULAR LEASED FACILITIES

Scalable Configurations

Civeo's modular equipment can scale based on the size of your workforce by adding and removing layouts as your needs fluctuate over the duration of your project. Whether you have a workforce of ten people or 5,000, we can accommodate you.

Relocatable

Our modular facilities can be installed almost anywhere, allowing your people to live in close proximity to your project site. Setup and installation is quick, efficient, and units can be relocated to multiple project sites if required.

Readily Available

Civeo maintains an active fleet of modular facilities ready to be deployed as you need them. There is no waiting for long design, engineering, and construction cycles that are typically associated with site-built options.

FULLY TURNKEY FOR YOUR CONVENIENCE

From install to operations, we serve you at every step of the way.

Rental and Sale of Equipment

Civeo offers an extensive inventory of reliable modular solutions at competitive rates for sale or lease. Our equipment is in excellent used condition, well-maintained, and offers a significant cost advantage over the purchase of new assets.

Transportation of Assets

Regardless of your project's location, Civeo can deliver. Whether it's by truck or barge, our experienced team can manage all logistics, permitting, and regulations to make sure the facility is ready when you need it.

Installations and Construction

Civeo's experienced and certified crews ensure that your facility is built and installed to the highest standards. Our attention to detail means that your facility will operate trouble-free for the life of your project.

Catering & Food Services

Civeo's team of Red Seal and Blue Seal Chefs have the ability to tailor menus to address any cultural, religious, medical, or lifestyle-specific requirements. Our extensive menu database ensures the same high quality across all our facilities.

Camp Operations and Maintenance

From housekeeping and building maintenance to logistics and billing, Civeo will ensure that every aspect of your facility runs smoothly. Our interactive maintenance system quickly responds to guest concerns so that any problem is quickly solved, and our detailed maintenance plans address every aspect before problems arise.

Safety and Environment

At every level of our organization, you will find people committed to Civeo's Making Zero Count culture of prevention and preparedness. The mandate established by our Board of Directors, the leadership provided by our senior management team, and the care provided by our frontline hospitality workers, all contribute to our shared commitment to protecting the health and wellbeing of our people, our guests, and our neighbouring communities.

FACILITY MANAGEMENT SUPPORT SERVICES

When you work long hours in a remote environment, you want to return to a clean and comfortable space where rest is your only focus. We provide a variety of additional support services to guarantee an enjoyable, worry-free stay for your people.

- Catering & Food Services
- Housekeeping and Janitorial
- Facility Maintenance
- Laundry
